Pillows Pillows Pillows

ALL EUROPEAN FILLS.
🌻 WORLD'S FINEST
DOWNPROOF FABRICS.

All DEWOOLFSON pillows are made from Austrian or German-engineered downproof fabrics that DEWOOLFSON has used and trusted for decades. Each pillow is filled and finished at the time of your order. Our pillows are never machine compressed, never shipped from overseas, and never stored in a warehouse.

Our pillows are either filled with all European white goose down or duck down, feather or a combination of the two. The most significant differences between down and feather are the amount of air trapped within.

Down – traps more air • fluffy, balloon-like pillow with “bounce” • loft-ability

Feather – packs harder • flattens more quickly with use

To select the right firmness we recommend

- 🕒 Soft pillow for stomach sleepers
- 🕒 Firm pillow for side sleepers (to keep your head level)
- 🕒 Medium firmness pillow for back sleepers.

900 Austrian Tencel™ Batiste

Our Austrian Tencel™ Batiste pillow is the finest white goose down pillow that we have ever made.

The fabric is a tightly woven blend of cotton and natural Tencel™ lyocell yarns, woven in Austria by a mill experienced in producing downproof textiles for over 100 years. This unique blend of fibers creates an exquisitely fine downproof fabric that feels very much like silk. The Tencel™ yarns are a natural cellulose fiber made from beechwood that absorbs body humidity at night and quickly releases it in the morning. This Austrian Lyocell Batiste fabric is finished with an invisible aloe vera finish that has antimicrobial properties and retards fabric yellowing and aging.

		☼			☼	29	\$570

Each pillow is individually filled at the time of your order with our exceptional – and rare – responsibly sourced European white goose down tested at 900 fill-power.

This is DEWOOLFSON'S best.

- 55% cotton and 45% lyocell (Luxe Tencel™).

850 Cotton Batiste

What makes this pillow so special is the combination of fabric and fill.

Filled with 850+ fill-power responsibly sourced, all European white goose down.

Covered with a densely woven, German-engineered downproof Batiste that DEWOOLFSON has used and trusted for decades.

The lightness and weave of this very special fabric makes this pillow feel like a cloud.

Pillow Protectors

As a manufacturer of some of America's finest down pillows, you would expect that DEWOOLFSON's pillow protector would be extraordinary. Made from genuine downproof fabric woven in a white-on-white damask stripe pattern. The fabric is densely woven from the finest yarns and calendared under heat and pressure. The result is a cotton fabric that is not only exceptionally light in weight, but also downproof and naturally dust mite resistant.

Snapshot of our *other* pillows

Travel pillows are made with the same materials and quality as our best sleeping pillows, but smaller. These are perfect for traveling or camping. Many customers use these every day for neck support when reading or watching TV, lumbar support when sitting, or support between knees when side-sleeping."

Boudoir size pillows make great decorative pillows on any bed. They are not for infant use.

Neckroll pillows provide just the right neck support where you need it or look great as a decorative accent on any bed.

Incredibly popular **Body** pillows double as bolsters used against the headboard. Made in two lengths, for queen or king beds, these are one of our most requested gifts for moms-to-be! In your choice of European white goose down or a down and delicate white goose feather blend.

The most popular 26-inch **European Square** pillows fit European shams. These are used to add depth to the bed, to offer support when sitting up in bed and as sleeping pillows. Our 850 fill European pillows are covered with our downproof Batiste cotton fabric.

German Square pillows that are so famous in Germany are 31 inches square. Consider using these for sleeping or as back support when sitting up in bed.

Our Commitment

Our Fabrics. We began by searching the world for the highest quality downproof fabrics. Over time we developed close ties to textile firms in Germany and Austria that have now been producing these specialized fabrics for well over a century. To this day, the same firms continue to supply us with materials that we have come to trust and our customers have proven through use . . . although some have a new twist, such as organic cotton, natural lyocell, and ever-so-light Batiste weaves. Every fabric meets international standards for minimizing ecological impact in production and to be free from harmful chemicals. Our comforters and pillows have no fancy names; most are simply identified by their outer fabric shell.

Our Down Fills. You have our promise to use only responsibly sourced, all-European down and feather fill that has been washed, sorted and tested in the USA. We believe that down products should never be vacuum packed, never be packed in containers for a long trip to the U.S., and never be stored in a warehouse. Down should be fresh to preserve its loft. And customers should have their choice of fills and warmth levels. So at DeWoolfson, each customer's comforter, pillow or featherbed is filled at the time of order, with state-of-the-art equipment capable of weighing down to a hundredth of an ounce!

Our Adjustable Pillows. We are reminded of that old family doctor's advice . . . "Take 2 at bedtime and call me in the morning." That's what we tell our customers. No one should purchase a pillow that isn't just the right firmness. So if your DeWoolfson pillow isn't exactly perfect we'll adjust the firmness for you. Ask your sales person for details about this service . . . for which we've become so well known.
